

Dear FCC members,
I am writing to urge that you not move
to lift current restrictions regarding
ownership of television stations and
newspapers.

Allowing a single corporate entity to
own, and control, too many media outlets
in a single geographic region fundamentally
undermines the breadth of news coverage.
Furthermore, it erodes the people's
ability to choose from among multiple,
competing news outlets for their news.

In short, lifting ownership restrictions mitigates
with respect to broadcast and newspaper
media outlets mitigates strongly in favor
of monopoly rather than free market choice
for consumers.

Sincerely,
Christof Demont-Heinrich
